

Duo Kit

Bituminous adhesive/sealant

Product:

Duo Kit is a black bituminous adhesive/sealant with permanent flexibility for superior adhesion. It can also be used for cold-glue purposes when necessary.

Duo Kit contains a mixture of selected bitumen and special polymers, providing very good UV resistance, fire resistance and extreme elasticity.

Applications:

Universally applicable for: sealing joints and chases, fixing of roof edge trims, repair of drainpipes and gutters and other roof details, quick repairing of sealing cracks and holes, adhesion of insulation boards.

Also used to edge-seal self-adhesive and torch-on membrane laps in below grade tanking applications.

Instructions For Use:

The surface has to be clean, dry and free from dust and grease.

In order to obtain maximum adhesion, it is recommended that porous surfaces are first treated with Duo Primer.

Required application-temperature is between 5°C and 40°C. Ensure good ventilation of the application-area. Avoid direct contact with skin and eyes. Wear suitable clothing.

Advantages:

- ◆ Sets up immediately - does not flow.
- ◆ Optimal adhesion to most building materials.
- ◆ Applicable on a dry as well as on a humid surface.
- ◆ Applicable in a wide range of roofing applications.
- ◆ UV-resistant
- ◆ Does not burn.

Packaging:

One cartridge contains 310 ml
One box contains 24 cartridges
