You should make yourself familiar with them.

ARDEX WPM 150

Shelterstick Self-adhesive Membrane

2mm SBS Fibreglass Reinforced Bituminous Membrane

PRODUCT DESCRIPTION

Ardex WPM 150 (Shelterstick Self-adhesive Membrane) is a self-adhesive bituminous membrane.

SPECIAL FEATURES

Innovation is the feature that distinguishes Ardex WPM 150 (Shelterstick Self-adhesive Membrane) from traditional torch-on or fastened systems.

- Absolute waterproofing resists high hydrostatic pressure.
- Because Ardex WPM 150 (Shelterstick Self-adhesive Membrane) is cold applied and installed without the use of naked flames, they offer a higher safety level on the job.
- Highly resistant to acids, alkalis or other pollutants.
- Ardex WPM 150 (Shelterstick Self-adhesive Membrane) membrane self seals on contact if being installed using nails or other fasteners, or if cut accidentally.

USES

Ideal for general waterproofing, foundations, tunnels, etc. and especially when, due to the type of operation or materials, the use of torch/fire must be avoided (e.g. on isolation panels, wood paint etc.) For these applications, Ardex WPM 150 (Shelterstick Self-adhesive Membrane) can also become self-adhesive on the upper surface, simply by heating the protection film until soft, enabling the membrane to be used as an underlay for the application of traditional torch-on membranes.

INSTALLATION

Ardex WPM 150 (Shelterstick Self-adhesive Membrane) is cold applied without the use of torch or special tools. Provides a fast and long-lasting waterproofing on materials such as: metal, wood, zinc, aluminium, cement or clay tiles, concrete, stone, asbestos cement and a wide variety of plastic products: polyethylene, polypropylene, fibreglass, polycarbonate and some PVC types. The membranes can be installed directly on inflammable materials, on insulation panels that are not fire resistant and in environments where the use of naked flames is dangerous.

VERSATILE

Ardex WPM 150 (Shelterstick Self-adhesive Membrane) resists elongation and mechanical stresses like no other system or waterproofing material can. Ardex WPM 150 (Shelterstick Self-adhesive Membrane) is a self-adhesive bituminous membrane with fibreglass reinforcement for waterproofing, sound and vapour barriers, underlays, etc.

Its versatility is assured because of the softness, lightness, and flexibility. In situations where traditional torch-on or fastened systems cannot be used Ardex WPM 150 (Shelterstick Self-adhesive Membrane) provides the best results without compromising the quality of the work done. Ardex WPM 150 (Shelterstick Self-adhesive Membrane) is also ideal for urgent repairs, assuring long lasting results.

PACKAGING

Roll size: 1m wide x 15m x 2mm.
